PRODUCT DESCRIPTION

- *Homogeneous fertilizer with high organic matter content for lawn care.*
- *40% of the total nitrogen is derived from methylene urea ES-MU™. The release of nitrogen by hydrolysis and microbial degradation of urea chains of different lengths, ensures a constant release of nitrogen over an extended period.*

PRODUCT BENEFITS

- *Slow release nitrogen ES-MU™ provides prolonged fertilization from 12 to 16 weeks without overgrowth. This premium product with superior slow release and longevity, allows you to effectively feed your lawn over an extended period.*
- *Each granule contains equal quantities of each of the nutrients for a more uniform fertilization.*

DIRECTIONS FOR USE

- Read the entire label before use. Apply only as directed.
- **IMPORTANT:** It is recommended to apply fertilizers in the early morning. Water in after application, especially during periods of high temperatures (28°C or above). Avoid applying fertilizer to drought-stressed turf. If turf is under drought stress, water before fertilizer application.
- Watering in after application will accelerate initial green-up and will aid in the movement of fertilizer granules into the turf canopy.
