

# Ultra N-Durance

#### PRODUCT DESCRIPTIONS

- Ultra N-Durance 25-0-3 premium liquid fertilizer is ideal for maintaining fairways.
- This product contains 40% slow release nitrogen from N-Durance™ which contains a combination of Methylene Urea and Triazone.
- 47% of the total nitrogen is treated with SSN™ stabilized urea nitrogen. This technology contains a volatilization inhibitor that reduces atmospheric nitrogen loss.

### **PRODUCT BENEFITS**

- N-Durance™ liquid nitrogen fertilizer contains Methylene Urea and Triazone, slow-release nitrogen technology. Slow release nitrogen means increased nitrogen absorption by plants to provide uniform growth and consistent colour intensity for 8 to 12 weeks. N-Durance™ improves nitrogen foliar apsorption and is a non-burning source of nitrogen for best application results.
- SSN™ improves nitrogen efficiency by reducing nitrogen loss due to volatilization. This technology contains a volatilization inhibitor that reduces atmospheric nitrogen loss which improves fertilizer efficiency and is more environmentally friendly. According to research, at least 30 percent of the nitrogen from urea can be lost to the atmosphere through volatilization within days of application.

## **PRODUCT CHARACTERISTICS**

Product Code: L120777 (208 L), L120770 (1000 L)

**Product Type:** Liquid Fariway Fertilizer

Size: Liquid

Net Weight: 208 L, 1,000 L Density: 1.262 kg/L

Coverage: 48,430 ft<sup>2</sup> at 215 ml/1,000 ft<sup>2</sup>

28,250 ft<sup>2</sup> at 360 ml/1,000 ft<sup>2</sup> 17,840 ft<sup>2</sup> at 575 ml/1,000 ft<sup>2</sup>

Colour: Blue

GUARANTEED MINIMUM ANALYSIS	%
Total Nitrogen (N)	25.00

10.0% Other Water-Soluble Nitrogen\*\*

11.8% Urea Nitrogen\*

1.6% Ammoniacal Nitrogen

1.6% Nitrate Nitrogen

\*11.8% Stabilized nitrogen from N-(n-butyl)-thiophosphoric triamide.

Soluble Potash (K,O)......3.00

\*\*10.0% Slowly available nitrogen from methylene urea and triazone.

#### **INGREDIENTS**

Triazone, Methylene urea, Urea, Urea ammonium nitrate solution, Muriate of potash

ENVIOSOI THE FERTILIZER SOLUTION

25

## **APPLICATION RATES**

Format L (gal)	Application Rate ml/100 m <sup>2</sup>	Application Rate L/ha	Nutrients supplied kg/100 m² (lb/1,000 ft²)			Area Covered m² (ft²)
	(oz/1,000 ft²)	(gal/acre)	N	P <sub>2</sub> O <sub>5</sub>	K <sub>2</sub> O	
10	215 (7)	21.5 (2.4)	0.06 (0.15)	-	0.008 (0.02)	4,650 (48,430)
(2.65)	360 (12)	36.0 (4.1)	0.11 (0.25)	-	0.013 (0.03)	2,775 (28,250)
	575 (19)	57.5 (6.5)	0.17 (0.40)	-	0.020 (0.05)	1,740 (17,840)

## **DIRECTIONS FOR USE**

- Read the entire label before use. Apply only as directed.
- IMPORTANT: It is recommended to apply fertilizers in the early morning. Water in after application, especially during periods of high temperatures (28°C or above).
- Avoid applying fertilizer to drought-stressed turf. If turf is under drought stress, water before fertilizer application.
- Watering in after application will accelerate initial green-up.

Format 208 L 1,000 L

#### **PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin and eyes. Always wear proper personal protective equipment. Long sleeve shirt, long pants, goggles and natural or butyl gloves recommended when handling the fertilizer. Wash thoroughly after handling.

Observe all precautions on label and read material safety data sheet before use. Avoid contaminating waterways and sewers during cleaning of equipment or disposal of wastes, always adhering to applicable provisions of federal, provincial, and local laws and regulations.

FIRST AID: In case of contact, immediately wash skin with soap and plenty of water. Remove contaminated clothing. Wash clothing before reuse. In case of contact with eyes, flush eyes with plenty of water and call a physician if symptoms occur. INGESTION: If swallowed, drink 1 or 2 glasses of water. Immediately call a physician or a Poison Control Center and follow their instructions. Do not induce vomiting or give anything by mouth to an unconscious person.
