DIRECTIONS FOR USE

- Read the entire label before use. Apply only as directed.
- If the turf is thin or damaged, repeat applications at a 4 to 7 day interval and continue regular fertilizer program.
- **IMPORTANT:** It is recommended to apply fertilizers in the early morning. Water in after application, especially during periods of high temperatures (28°C or above).
- Avoid applying fertilizer to drought-stressed turf. If turf is under drought stress, water before fertilizer application.
- Watering in after application will accelerate initial green-up.
