# Natural Homogenous Fertilizer

## PRODUCT DESCRIPTION

- Homogeneous natural fertilizer formulated with blood meal, feather meal and bone meal.
- Contains 2% calcium, 1% magnesium and 1% iron.
- Contains 1% magnesium to help correct deficiencies.

## PRODUCT BENEFITS

- Natural fertilizer certified for organic farming by Québec Vrai.
- Each granule contains equal quantities of each of the nutrients for a more uniform fertilization.
- The role of calcium is to promote cell growth and strengthen cell walls. It increases plant resistance to various stresses.
- High organic matter to improve soil structure and activities of micro-organisms in the soil acid.
- Magnesium is crucial to healthy plant growth for the formation of chlorophyll and the storage of carbohydrates in the root system.

## DIRECTIONS FOR USE

- Read the entire label before use. Apply only as directed.
- Apply only to dry foliage.
- **IMPORTANT:** It is recommended to apply fertilizers in the early morning. Irrigate after application, especially during periods of high temperatures (28°C or above). Avoid applying fertilizer to drought-stressed turf. If turf is under drought stress, irrigate before fertilizer application.
- Irrigating after application will accelerate initial green-up and will aid in the movement of fertilizer granules into the turf canopy.
- Apply after mowing to prevent particle pick-up by mowing equipment. To further reduce particle pick, do not collect clippings for one mowing after application.
