Nutri-Cal™

PRODUCT DESCRIPTIONS

- Contains 8% calcium in a highly available form and 0.5% boron.
- Formulated with **CARBOXY™** organic acid.
- Used to supply AVAILABLE calcium in the spring and summer. Plants become less prone to diseases and environmental stress. Plants become less susceptible to diseases and environmental stresses.
- This FOLIAR FERTILIZER has been created to maximize the supply and availability of necessary nutrients to the turf during the growing season.
- Use to improve the physical and chemical structures of the soil when sodium levels are high or when irrigation water contains excessive sodium and/or bicarbonates.

PRODUCT BENEFITS

- The carboxylic acids (**CARBOXY™**) contained in this fertilizer promote root development and increase the plant's ability to absorb nutrients in the soil, even less mobile elements such as calcium and phosphorus.
- The role of calcium is to promote cell growth and strengthen cell walls. Calcium makes the plant more tolerant of environmental stresses.
